

PROFESSIONAL SUMMARY

Aspiring Software Test Engineer with strong interest in **Manual Testing** and **Automation Testing**. Skilled in designing and executing test cases, identifying defects, and ensuring software quality. Knowledge of **SDLC** and **STLC** with hands-on experience in real-time testing environments. Designed and executed test cases, performed functional, regression, smoke, and sanity testing.

EDUCATION

Government Autonomous College, Rourkela | Odisha
MSc in Computer Science

2019

SKILLS

Manual Testing: SDLC, STLC, Test Case Design, Test Execution, Functional, Regression, Smoke

Defect Management: Defect Life Cycle, Bug Reporting, Jira

API Testing: API Testing Knowledge by Postman

Database: Basic MySQL

Operating System: Windows

WORK EXPERIENCE & TRAINING

QA Engineer - CodeTikki

April 2026 - Present

- Designed and executed manual test cases for functional, regression, and API testing.
- Logged and tracked defects in Jira with clear reproduction steps.
- Performed exploratory and regression testing to ensure stable releases.

System Analyst Intern at WORKFALL

Feb 2026 - Mar 2026

- Created and executed test cases for functional, regression, smoke, and sanity testing following SDLC and STLC.
 - Reported and tracked defects with clear steps and collaborated with developers for fixes.
 - Performed exploratory testing, retesting, and maintained test reports to ensure stability.
-

CERTIFICATIONS

Software Testing Training - Besant Technologies, Bangalore

ACADEMIC PROJECT

Wireless Sensor Network in Agriculture

- Studied node deployment and coverage area in different deployment strategies.
 - Compared hexagon with other polygons for coverage efficiency.
 - Found hexagon provides better coverage in terms of node utilization.
-

ACHIEVEMENTS & ACTIVITY

- Completed QA Training at Besant Technologies with hands-on experience in Manual Testing, SDLC, and STLC.
 - Gained practical exposure in test case design, execution, and defect reporting through academic projects.
 - Practiced functional, regression, and exploratory testing to strengthen QA fundamentals.
